**FUNDRAISER &
COCKTAIL HOUR**

Join us on October 5, 2022, at the Casa Feliz Historic Home Museum, as we preview our work in action. Black Architects in the Making sets to entice, excite, and encourage the younger generation of color. Those who identify as such, pursue a career in architecture. Our workshops are developed to provide hands-on development and experience. In addition, BAM aims to offer internships and scholarships for architectural education, to promote diversity in the architectural community.
